

MSMWHS217

GAS TEST ATMOSPHERES

Access Unlimited is a Registered Training Organisation (*Provider No: 51806*) **MSMWHS217 Gas test atmospheres**

This half day course is designed for persons required to test the working atmosphere to determine if it is safe for the proposed work. Testing involves the use of electronic test apparatus.

In a typical scenario an individual may be required to carry out gas testing of an atmosphere prior to entering a specific area or workspace. The competency requires the person to interpret readings and take actions based on the interpretation. This unit is modelled on the Public Safety unit PUAFIR307A Monitor hazardous atmospheres, but does not have the prerequisites, which are not required in the industrial context. The unit is more focused on the needs of that sector and has some wording changes.

Topics Covered

- ▶ Regulations & Legislation
- ▶ Australian Standards
- ▶ Hazard Identification & Risk Assessment Entry
- ▶ Permits
- ▶ Atmospheric Test Requirements
- ▶ Atmospheric Hazards & Measurement
- ▶ Explosive, Flammable & Toxic Atmospheres
- ▶ Gas Detection Systems
- ▶ Record keeping

Course Cost

Individual: \$150

Company Group: \$950 (8 to 12 participants)

Note: GST does not apply to nationally recognised training.

Course Logistics

Number of Participants: Maximum 12

Where: Malaga training centre or on-site in Western Australia

Duration: 1/2 Day (up to 4 hours)

Equipment: Supplied by Access Unlimited

Conditions: Must be over 18 years to enrol

Successful completion of both the theoretical and practical assessments will lead to the issue of:
Nationally Accredited Statement of Attainment in
MSMWHS217 Gas Test Atmospheres.
